Office of the Secretary

**Re: FCC File No. SAT-MOD-20101118-00239;
FCC IB Docket No. 11-109**

Ms. Dortch:

Enclosed please find comments regarding the FCC docket IB 11-109, proposed LightSquared LLC service and interference with GPS. This is Box #3 of 4, each of which contains approximately 3,750 comments for a total of 15,009 original comments. Please note that approximately every 500th comment is identified by colored paper.

As required, duplicate copies of these comments are included under separate cover, labeled as Box #1 duplicate, Box #2 duplicate, etc.

Thank you for your attention to this matter.

Sincerely,

Margaret Podlich
Vice-President, Government Affairs

Dear Federal Communications Commission:

As you consider the conditional approval for LightSquared, I write to ask you to preserve the integrity of the nation's GPS system.

Last year, the federal government shut down the Loran navigation system, making recreational mariners solely reliant on GPS for all electronic navigation needs. Like so many other GPS users around the country, GPS is now integrated into our daily outings, and we look to the FCC to protect the integrity of the GPS signal.

Sincerely,

Mark Majerus

Like so many other GPS users around the country, GPS is now integrated into our daily outings, and we look to the FCC to protect the integrity of the GPS signal.

I use my GPS unit for auto as well as recreational boating . I rely on the GPS unit for many varied things. It's inconceivable to me you would even consider causing so many people to loose a valuable service such as this. This assault on the individual GPS user is TOTALLY UNACCEPTABLE!!!

Sincerely,

Adrian Logsdon

Like so many other GPS users around the country, GPS is now integrated into our daily outings, and we look to the FCC to protect the integrity of the GPS signal.

Just last week, my family and I enjoyed a two day fishing adventure. My GPS charting system was an absolute necessity as we navigated the waterways around Apalachicola, Florida. This area has many unmarked and very shallow oyster bars and shoals. To attempt this passage without accurate positioning would be tragic. Please save the integrity of the current GPS systems.

Sincerely,

David J Hanle
